

If the hyena doesn't catch them, **Idris** will!

Red light speed enforcement

**“Idris provides a single function speed solution.
Highly accurate speed data obtained from standard sensor loops”**

Features:

- ◆ Speed accuracies of better than +2kph at speed ranges from 5kph to upwards of 200kph.
- ◆ Acceleration & Deceleration over the site.
- ◆ Detection of Straddling Vehicles.
- ◆ Variable Speed Limit by Classification:- Idris will recognise the class of vehicle, compare it with the statutory speed limit relating to the vehicle and trigger the enforcement process if the speed is inappropriate.
- ◆ Detect an erroneous speed measurement & positively prevent any miss-image triggers. This creates a secure evidential detection method for enforcement cameras.
- ◆ Per vehicle record output including speed, direction, classification, precise time and date for client records.
- ◆ The “plug & play” nature of the Idris Technology enables additional functionality to be applied.

Benefits:

- ◆ No moving parts to deteriorate.
- ◆ Impervious to wear & tear.
- ◆ Long term consistency in performance levels.
- ◆ Detection of multiple offence types in one location e.g. speed and bus lane.

Products:

- ◆ Enforceable Speed Unit.
- ◆ Red Light Speed Enforcement
- ◆ Bus Lane Priority.

Idris® the 21st Century answer to accurate traffic enforcement

*The Idris Technology is protected by one or more of the following patents: EP0879457, USA 6345228 and 6337640
Patent Applications Pending in other Countries. Idris® is a registered trademark of Diamond Consulting Services Ltd.*
